**Legislative Report on the  
101<sup>st</sup> General Assembly**

**April 5, 2019**

**Prepared by BP Consultants**

---

**Introduction:** The attached Legislative Report includes legislation from the 2019 Spring Session of the 101<sup>st</sup> General Assembly. This report has been prepared by BP Consultants on behalf of IAMC.

We have included bills that we believe may be of interest to your organization. Please review this report carefully to see if we have included all areas of interest. If we have included legislation that is not relevant or legislation that you do not wish to track, please let me know and they will be removed. Bills that are no longer active have been removed from this report but will be added back in if they move forward later in the session.

Both chambers were in session this week and are scheduled to return on Tuesday, April 9<sup>th</sup>. The focus will be on floor action with the Third Reading deadline to report substantive legislation from the chamber of origin on Friday, April 12<sup>th</sup>. Following that, the legislature will take a two week break.

As lawmakers focus on floor action and passing bills from the chamber of origin, the legislative leaders and the Governor's office continue to hold meetings on some of the top issues of the session, including the FY20 budget and revenue sources, capital plan, sports betting and legalized marijuana.

The House on Thursday approved a measure that would provide for an elected school board in Chicago. By a vote of 110-2, the House passed HB 2267 (Representative Martwick and Senator Aquino) that would replace the current seven-member Chicago Board of Education, whose members are appointed by the mayor, with a 20-member board elected from districts across the city beginning with the 2023 election. The board would also have a president, elected citywide. The General Assembly would draw the initial district boundaries, and the setup would be phased out after the 2027 election unless lawmakers vote to extend it. The bill now goes to the Senate for consideration.

The Senate Executive Committee has advanced a bill that may be used to add language legalizing recreational marijuana. SB 7 (Senator Steans) was reported out of committee on a vote of 12-4-0. "We're going to be coming back to the committee with the full amendment," said Senator Steans. "Hopefully we're going to file it by the end of April and we're going to have plenty of time to hear it and debate it." The actual details of the bill are being negotiated privately by lawmakers, the governor's office and cannabis industry advocates who say the existing medicinal growing market has the capacity to meet the initial demand of adult-use marijuana legalization. Steans said she and other stakeholders are looking to allow people 21 and older to have a little more than an ounce at a time. They are also considering proposals to add three new licenses to the state's existing medical marijuana program's cultivation and dispensary licenses. The bill is now on Second Reading in the Senate.

The House has approved a measure that would bar municipalities in Illinois from enacting local "right-to-work" laws like the one the village of Lincolnshire enacted in 2015. SB 1474 (Senator Villivalam and Representative Yednock) would clarify that state government has the exclusive authority to enact laws governing what are known as union security agreements – agreements between employers and unions that spell out the extent to which workers can be compelled to belong to a union, as well as whether the employer will collect dues and fees on behalf of the union. Representative Yednock said it would only reiterate what Congress intended when it passed the 1947 Taft-Hartley Act, which gave states authority

to enact right-to-work laws. The House approved SB 1474 on a vote of 101-8-0 and the bill is back in the Senate for final approval.

An initiative of Treasurer Frerichs' office would allow him to refinance an Illinois resident's college loans at low-interest rates in hopes that it will help them better afford their payments. HB 2474 (Representative Ammons and Senator Lightford) would allow the Treasurer's office to extend up to 5% of the \$31 billion it manages to help with student loans (about \$620 million). Representative Ammons said the program would help reduce the number of local student loan defaults. "The goal is to get the interest rate low enough so that people can really afford to make their payments," she said. Ammons said the interest rate would be set by the treasurer once the bill passes. The Treasurer's office said there would be an upfront cost of \$150,000, but the interest on payments from students should then cover the administrative costs thereafter. The bill passed the House on a vote of 67-33-0 and is now in the Senate for consideration.
